一定要控制好缩进量

练习：

```python
score = int(input("请输入成绩："))
grade = ""

if score > 100 or score < 0:
    print("超出执行范围")
else:
    if score >= 90:
        grade = 'A'
    elif score >= 80:
        grade = 'B'
    elif score >= 70:
        grade = 'C'
    elif score >= 60:
        grade = 'D'
    else:
        grade = 'E'

print('成绩是：{0}，等级是：{1}'.format(score, grade))
```
